EDUCATION

Yashwantrao Chavan Maharashtra Open University
Bachelor of Computer Applications **Jun 2022 – May 2025**

Elphinstone College
Higher Secondary (XII) – PCM with Computer Science **Jun 2020 – Mar 2022**

Royal City English High School
Secondary School (Std. X) **Jun 2018 – Mar 2020**

EXPERIENCE

Full Stack Developer **Apr 2022 – Present**
Vade AI (Vade Labs Pvt. Ltd.)

– Co-built **Vade Studio** in **Clojure/ClojureScript**, an AI-powered no-code platform enabling non-technical users to visually build and deploy apps, helping reduce development time by **up to 60%** for early adopters

– Translated **50+ Figma designs** into production-ready, responsive, and accessible UIs, ensuring consistency across the design system and improving usability

– Engineered modular **frontend systems**—drag-and-drop builder, schema-driven rendering, and reusable components—in **ClojureScript (React interop + Tailwind CSS)**, reducing code duplication by **30%**

– Contributed to **backend systems** in **Clojure** (*and Node.js where needed*), implementing authentication, tenant-based access control, and API endpoints to support scalable workflows

– Refactored and optimized core codebases, resolving production blockers under tight deadlines while collaborating directly with the founder and cross-functional teams to deliver rapid iterations and maintain **99.9% uptime** through continuous deployment

– Built a **financial automation platform** integrating the **Xero API** for invoice scheduling, rules-based accounting, and forecasting, reducing manual bookkeeping effort by **70%**

– Developed an **AI-assisted FDA IND application platform** integrating the **Gemini API**, enabling users to generate IND-related documents with AI support and cutting preparation time from weeks to days

– Owned the full **software development lifecycle** for **both client applications**: requirements gathering, architecture, development, deployment, and long-term maintenance, ensuring reliable delivery and scalability

PROJECTS

Lexicon — Dictionary Chrome Extension | *React.js, Chrome APIs, AI Integration* [Live]
Chrome extension (200+ active users) for instant word lookup, with features like search history, word-of-the-day, and AI-powered contextual explanations

Real-Time Chat Platform | *React, Node.js, WebSockets* [Live]
Messaging platform supporting direct chats, group creation with member management, and standard chat features such as presence detection, read receipts, and persistent history

E-Commerce Platform | *Next.js, Express, PostgreSQL* [GitHub]
Full-stack e-commerce system with product listings, shopping cart, checkout, and payment integration, plus an admin panel for product management

Legal Guard AI | *React, Gemini API* [Live]
Legal-tech platform where users upload legal documents (PDF or text) for AI-powered analysis, summarization, suggested actions, and response drafting aligned with user intent

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Clojure/ClojureScript
Frontend: React, Next.js, Tailwind CSS, HTML, CSS
Backend & Databases: Node.js, Express, Clojure, PostgreSQL, MongoDB
DevOps & Tools: Git, Docker, CI/CD (GitHub Actions), DigitalOcean, API Integrations, Chrome Extensions, Figma

CERTIFICATIONS

The Complete Web Development Bootcamp **Dec 2020**
Instructor: Dr. Angela Yu *55+ Hours*

– Covered full-stack development (HTML, CSS, JavaScript, React, Node.js, Express, MongoDB)
– Built hands-on projects, strengthening fundamentals across frontend and backend
